Strong attention to detail.

Leadership.

Painted finishes.

Illustration.

CONTACT INFO

Artist statement of interest.

This piece is dedicated to this beautifully diverse community and it's active family and youth visitors. With basketball, a skatepark, tennis and bbq fun, new faces and daily activity are ever growing with all the non stop energy, I'd like to commemorate its characters and day to day fun.

Theme.

The theme around this project is focused around its ever evolving community and the park's daily activities.

With fun faces, flowing color and shapes you'll find around the park.

Objective.

The objective is to have the park's visitors engage with the images flowing throughout the bench. Seeing something that reminds them of a memory they have from ocotillo park.
