Hello Artist committee. My name is MaryPat and creating Art has been my life long passion. Especially for family , Kiddos and now, grandkiddos. My style is "Playful, bright colors, impressionist " I believe art should make you happy !!! I thoroughly enjoy projects that make you dream outside the box ! My family and I have just begun converting an old popup trailer into a playhouse. Throughout the years I've created many works of art for friends and family, these are my favorites because they are so personal and will be cherished forever. I'd love to be considered for painting a bench in the park. A park is beautiful place for family's to gather.

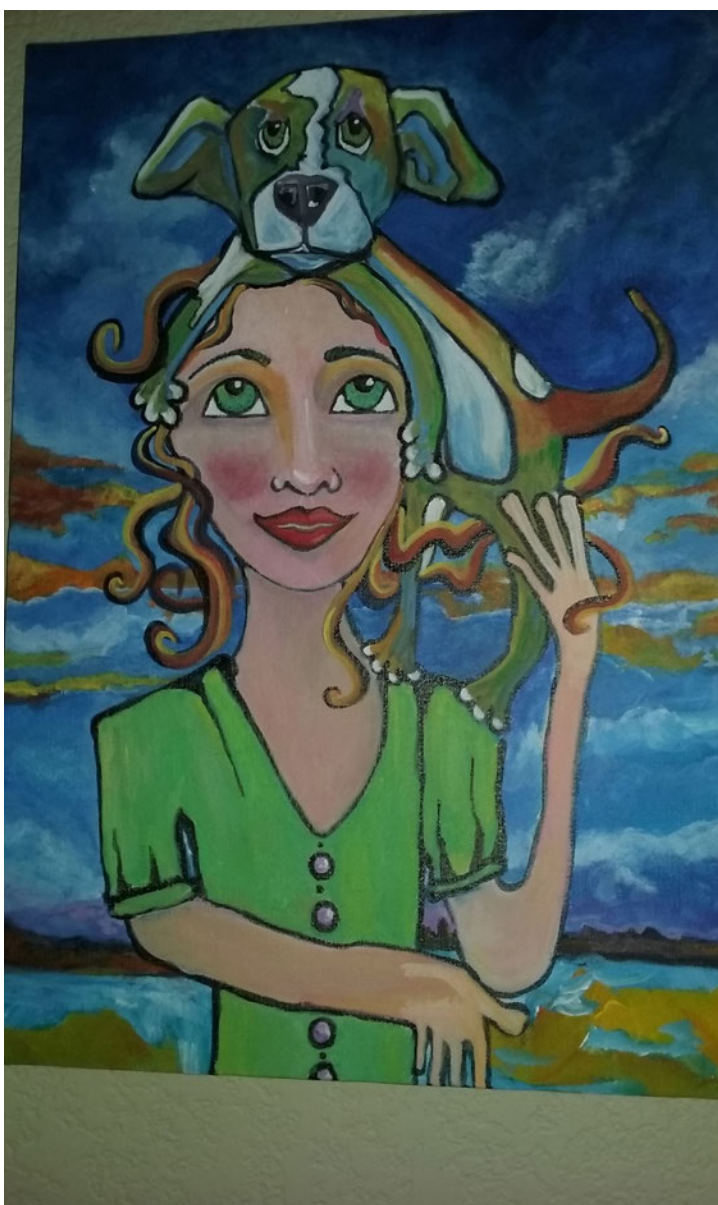

My idea for a bench would be a beautiful background of soft blue and violets with a feature of twisted oak branches and a pair of beautiful brightly colored birds guarding their nest filled with colorful eggs. Thank you for this wonderful project and I hope you will consider me.

Enjoy your day

STATEMENT

My work is Joyful, Colorful, Impressionist. I want people to feel at peace and smile when they see my Art. I have a passion for color and Playful designs. I want people of all ages to be inspired to take a moment and dream as if they were a child, let their imagination free.

I love Bold, bright Colors and brightly colored landscapes. I have and a true passion for Mother Nature's beautiful gifts. One of my favorite spots on earth are red rock canyons and capturing the flow of a rushing river and a Brilliant sky filled with sunlit clouds.

CONSIGNMENTS, ARTISTIC PROJECTS

In the 1980 and 1990's after working for the Boeing company during the day to support my family I would spend my evenings fueling my passion for Art by creating Posters for the Kiddos schools or projects for Family and Friends that would ask for art to fill their houses. I never stopped dreaming or creating Art.

In 2022 I was hired to create a new 4' x 12' store front sign for a local Restaurant Bar. FireSide Lounge. I constructed and Painted the sign to the owners wishes and they were thrilled.

In 2020 I was hired to design a 4'x5' Air-condition Cover for a private residence With swirling waves of brightly colored sand and a little tree lined Oases.

2018 a impressionist portrait for a young girl and her new puppy. The puppy had crawled upon the little girls head and neck, her parents were thrilled with the painting.

2016 an impressionist painting of 3 children playing in the Colorado River. This family asked for 4 more paintings over the years that fill their River house with Color.

2023 a portrait for Husband and Wife, while enjoying the afternoon at their favorite getaway spot.

2017 hired to create a new Logo design for Restaurant Bar along Colorado River. The restaurant owner was never able to fulfil his dream but loved the design so much he ordered t-shirt's anyway.

Over the years I've created countless paintings and crafty works of art.
Art makes me Happy!!

My Vision for a Park Bench,

I imagine a park bench in a background of soft blue with a big oak tree branch and a brightly colored pair of exotic birds keeping watch over a nest of beautifully colored eggs. The support legs of the bench will have bunny rabbits, lady bugs, buzzing bees, and flowers. This bench is a perfect spot for Grandparents to sit and watch as the Kiddos play. Then, while they enjoy lunch the Kids can count how many different bees and lady bugs they can find.
