- Format Ebooks for publication

## Statement Of Interest

Growing up in Cathedral City, I have witnessed the tremendous positive impact that Ocotillo Park has had on our community. As a regular visitor to the park, where I often roller skate and enjoy the outdoors, I have developed a deep appreciation for this valuable community space. I am eager to give back to the community in the best way I know—through art.

As a local businesswoman in the valley, I take pride in supporting and enriching our community. I am an artist who specializes in large canvases, using vibrant colors and intricate details to bring my visions to life. My passion for painting is reflected in the bold and colorful works I create, each piece a testament to the beauty found in real life.

I would be honored to contribute my talents to enhance the beauty and spirit of Ocotillo Park. Thank you for considering my application.

Warm regards,

Alexandria Hebb
