### Project 1:

#### College Competition

This project was a college project back in 2017.

The project was suppose to be a 24 hour design challenge.

A group of students volunteered to spend 24 hours at school designing for 4 nonprofit organizations.

This particular organization caters to homeless

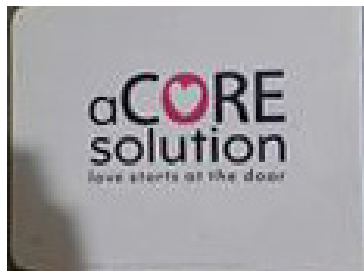

people around the San Bernardino area,

helping them with whatever resorces they need. Below is a link to their facebook paige

where you can see them proudly displaying the logo we created for them and if you

scroll down you can see a pic of myself and my team who helped me create this logo.

<https://www.facebook.com/acoresolution?mibextid=ZbWKwL>

This is another piece that holds tremendous sentimental value to me.

This is a project I did for you guys as well as part of the Indio Miles Avenue Public Arts Program that was held in 2011. I was still in high school when I won this award and the \$500 stipend that came with it as well. You guys also provided a scholarship for me to go school to The Art Institute of California Inland Empire from which I have graduated from now and I would love to come back to this competition and show everyone what you guys gave me the oppurtunity to learn from.

### Project 2:

This was another college project I did. This partitcular piece holds some sentimental value to me because the project was supposde to draw something that reflects what you love. I really

have a strong passion for creativity/muisc pretty much anything that allows you to create something, so I drew a sketchbook with music notes surrounding a heart showing my love for what I do.

Below here is also a link to my behance paige where you can see my graphic design work.

-PS it is a interactive site so you can see whenever I post new projects if you follow me.
