Letter of Interest in this project at Ocotillo Park

I have always loved the idea of artwork being used to beautify public and/or private spaces. Artwork is one of the most important aspects of any culture, and I have enjoyed being a part of the beautification process in the many projects throughout my life. I love the Coachella Valley where I bought a condo 3 years ago, and am so looking forward to add my loving touch to this beautiful park in Cathedral City.
