KAT TREVINO

I am pleased to submit my designs to the beautiful Cathedral City.

As a muralist the need for public art is essential, bringing art for all to see and enjoy.

I have had the pleasure to create for Cathedral City before at the library where I created “Butterfly Book”.

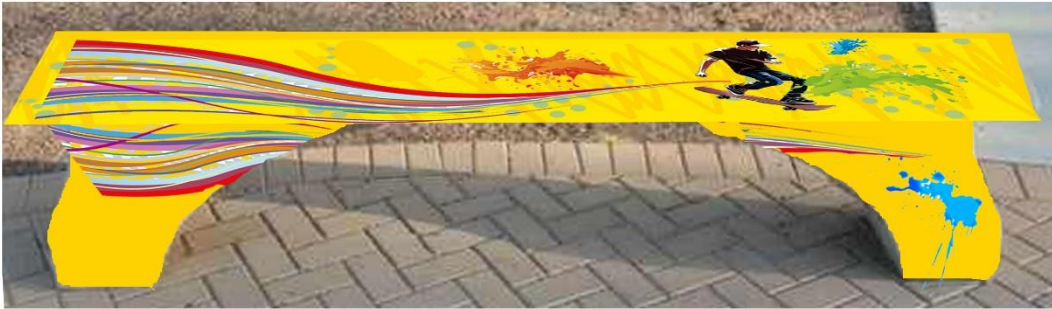

Nothing brings me greater pleasure than to beautify our world through imagination and creation.

It would be an honor to continue my works to a wider audience connecting us all by ART.

PUBLIC ART

Open Window

Omnitrans & inland SoCal Creative Corps

Contributing to the Inland Empire my design tributes the infamous Route 66 "Get your kicks" is right at home on Route 66 in Fontana on Foothill Blvd 2024.

Incorporating part of the city's history that lives in the heart of Route 66's icon landmarks celebrate this area and its people that have endured for generations.

Route 66 – "Get your kicks"

Palm Springs Public Art Commission

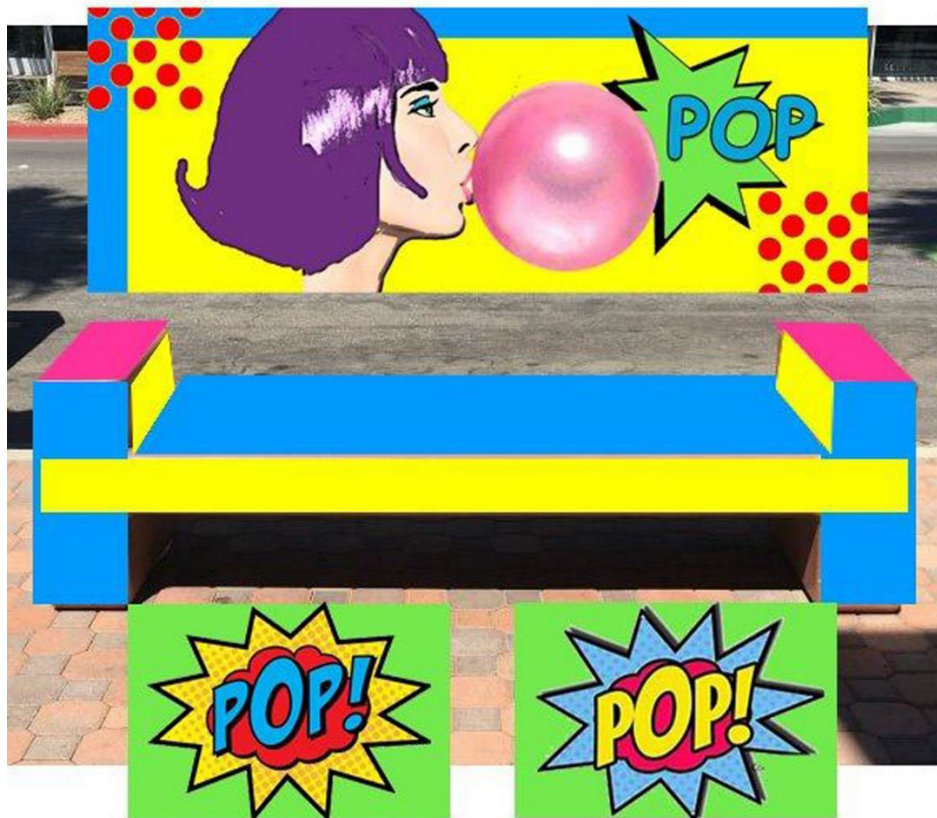

In the Fall of 2020 Palm Springs Public Arts commissioned my first bench. This bench is located on the city's entering strip - Palm Canyon Drive.

Palm Springs is known for its unique creative Arts. My bench "POP" is the first public artwork introduction leading to the city's renowned Art District.

The bench is accompanied by an ash tray that I painted to complement the bench with multicolored rocks added.

I was overwhelmed with the community's delight. That I was offered three more projects.

Pop

(SIDES)

Sunglasses-

The second project was to design a bench painting that would sit in front of Palm Springs Convention Center.

This design has a swimming pool reflection in sunglasses with palm trees on each side reminiscent of Palm Springs living.

My bench welcomes all who enter the Convention Center. Among their grand events Palm Springs hosts The International Film Festival. Hollywood's Academy Award Contenders kick off awards season each year here where they roll out the red carpet and welcome the hottest industry players, A-list celebrities.

Palm Springs Convention Center

Wish-

The next bench Palm Springs commissioned was to be across from the infamous Sherman's Deli.

I created a night sky with turbine propellers flying like a wish flower in the never-ending breezes that grace their skies.

(SIDES)

After the completion of my third bench the city of Palm Springs designed a poster commemorating all the benches all the artists created in this project.

I attended the press release and signing to an adoring community.

The Art Benches of Palm Springs

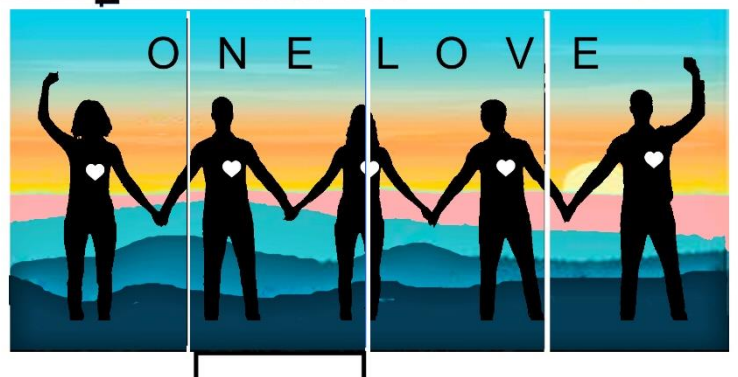

Palm Springs – One Love

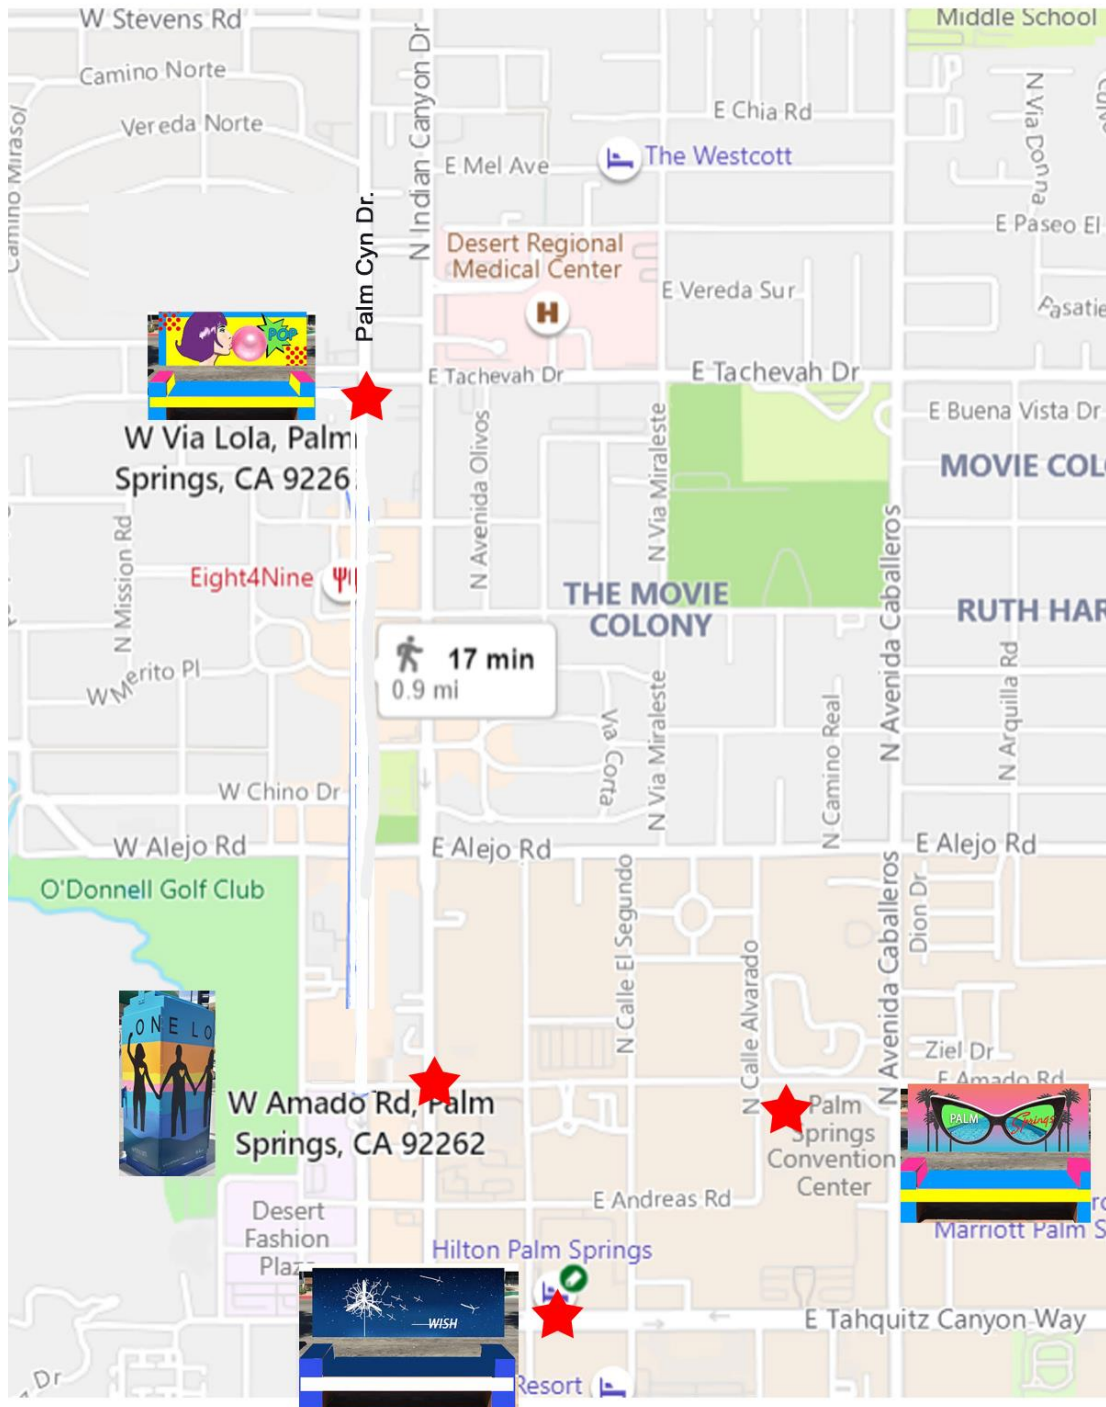

After such success Palm Springs continued their Public Arts Project to add Utility Boxes.

I was assigned the first box on Indian Canyon and Armado – one block across from The Palm Springs Museum.

The Map Public Art in Palm Springs

Cathedral City Public Arts Commission

In April of 2021 Cathedral City Public Arts Commissioned me to design a painting for bench in the Garden of their Public Library.

This Garden is in the center of the city where several people utilize. They wanted a bench the many joggers, dog walkers, Library enthusiasts and families to the adjacent baseball Field could sit and enlightened their day with artist whimsy.

Sherman Oaks Chamber Foundation

In the Summer of 2021 Sherman Oaks Chamber Foundation - Let's Paint Sherman Oaks - commissioned me to paint my Infamous "Butterfly Sky".

This design was a self portrait with butterflys as my hair from my first mural I painted for Los Angeles' "Mural Row" where it was seen by thousands weekly.

As I painted the neighbors gathered with delight to have this brighten them daily. I was elated with their support over the joy Art brought them.

Location: Chandler and Hazeltine

Wrapped Up -

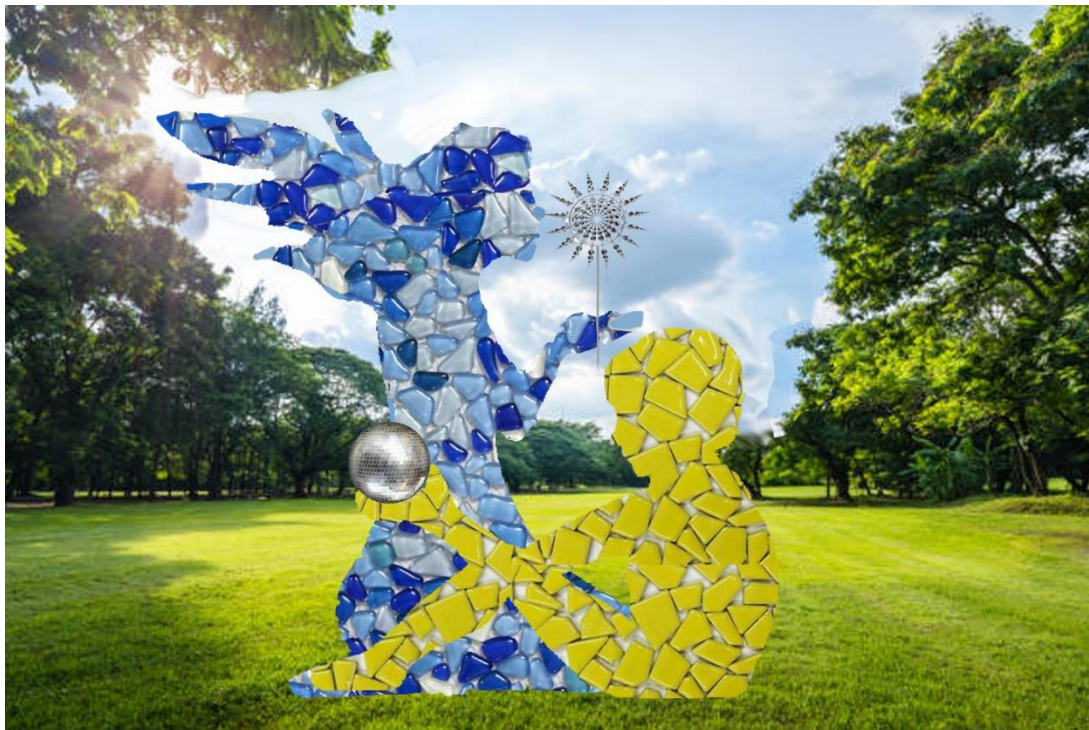

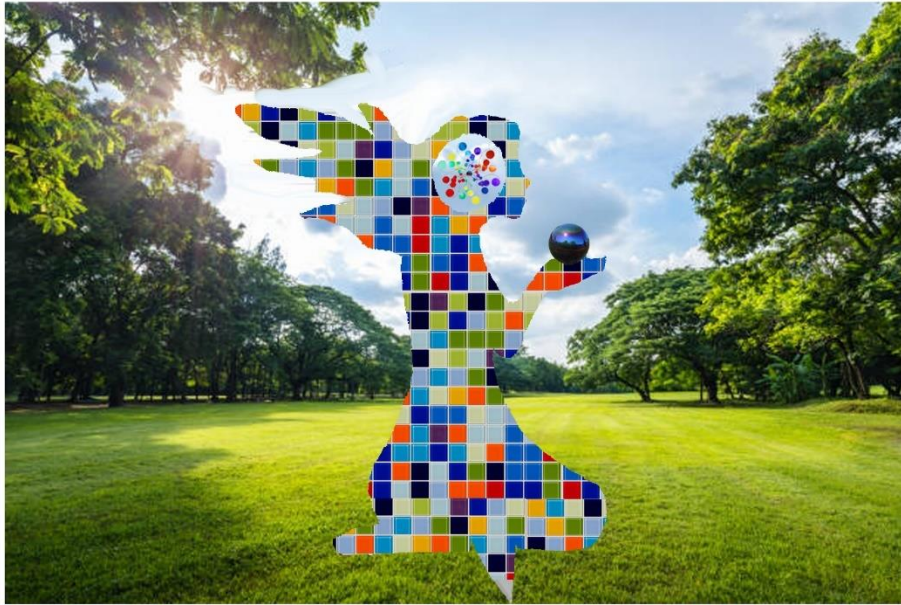

Sherman Oaks Commission me this week to add even more splendor to their elustrus city.

I will begin the next Utility Box next month with this lavish design of their signature Oak Leaves whisking in the wind around the head of this scarlet ribboned beauty.

Location: Woodman and Moorpark
