

**E. 2025 Fire Hazard Severity Zones (FHSZ) Update**

Recommendation: Receive and file this report on the updated 2025 Fire Hazard Severity Zones (FHSZ) issued by CAL FIRE, and direct staff to assess local implications related to zoning, building codes, defensible space requirements, and public education. Consider public outreach regarding updated hazard classifications within local responsibility areas (LRA). The State of California mandate is for the city to adopt the FHSZ Map.

Government Code section 51178 requires the State Fire Marshal to identify areas in the state as moderate, high, and very high fire hazard severity zones shall be based on consistent

statewide criteria and based on the severity of fire hazard that is expected to prevail in those areas. Moderate, high, and very high fire hazard severity zones shall be based on fuel loading, slope, fire weather,

and other relevant factors including areas where winds have been identified by the Office of the State Fire Marshal as a major cause of wildfire spread.

The State of California and the Department of Forestry and Fire Protection make no representations or warranties regarding the accuracy of data or maps. Neither the State nor the Department shall be liable under any circumstances for any direct, special, incidental, or consequential damages with respect to any claim by any user or third party on account of, or arising from, the use of data or maps.
